

PF-P330

Folder

The PF-P330 Automatic Suction Feed Desktop Folder from Standard provides users convenient operation and exceptional productivity without marking or damaging the sheets. Fully featured for quick and simple set-up, the revolutionary PF-P330 will deliver years of dependable quality folding.

- *Quiet operation*
- *Compact desktop design*
- *Push button fold selection*

 **STANDARD**

PF-P330

The PF-P330 automatic suction-feed folder from Standard with pre-programmed fold settings and LCD message display clearly is the easiest and quietest paper folder available designed to handle the varied stocks and output from today's various print technologies. Copy centers, businesses, quick printers and churches; virtually any organization will quickly appreciate the performance and quiet of its patented suction feed, the speed of push-button set-up and the productivity and performance that is the trademark of Standard paper folders

Simple Operation

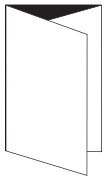

The operator selects from four preset sheet sizes and six programmed fold patterns with the press of a button. Operational functions and settings are clearly viewed on the LCD screen. The large start/stop feed button and other operator controls are easily identified and intuitive to use.

Revolutionary Feed System

At the heart of the PF-P330 is its patented rotary vacuum-pulse feeding system that provides super-reliable feeding on nearly all stocks. This innovative feed system requires virtually no adjustment when changing stocks. An additional benefit of this patented feed system is that it is exceptionally quiet and operates at a sound level similar to that of a mid-volume office copier.

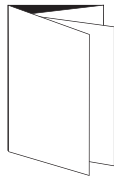

Preset Fold Patterns

Letter Fold

Half Fold

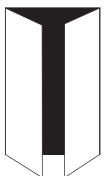

Double Parallel Fold

Engineering Fold

Z-Fold

Gate Fold

Simple Maintenance

The PF-P330 is designed for easy operator maintenance. Removal of the fold rollers requires no tools, making cleaning or replacement a simple task.

Programmable Memory Function

There are two programmable memory settings for custom folds and by selecting counter mode you can set the preset counter for batching with the 10 digit key pad.
